Potser podríem plantejar algun projecte comunitari, com revisar centres de salut, farmàcies, serveis d'emergències... "inspirant-nos" en les dades obertes de la Generalitat o de l'Ajuntament. No dona temps a muntar tasques d'importació pròpiament dites, però revisar què hi ha al teu municipi i entorn no estaria de més 🤔

22:28

A nosaltres de moment ens fan anar, només preveuen teletreball per alguns caps, però també ens han donat opcions de jornada flexible i bossa d'hores a compensar, per facilitar conciliació familiar.

Enable for all Spain and Andorra #94

Closed yopaseopor opened this issue on Mar 31 · 11 comments

 yopaseopor commented on Mar 31 Contributor

Your map is awesome, and we will translate it. But would be able to edit for all Spain? I think is silly to try to reinvent the wheel. For Spanish community would be more interesting to start editing points in Spain instead of trying to create something similar in Spain.

 francois2metz added the **enhancement** label on Mar 31

 francois2metz commented on Mar 31 · edited - Member

Hi thanks for reaching us about this.

There is at least 2 solutions for this:

- you deploy the code yourself (we need to document how to do it in english), if you have the resources to do it, or;
- we do it for you. Here are the few things I'm thinking about:

☐ Have a localized domain name

☐ Have the data loaded and updated alongside the french one

☒ Have a spanish translation

☐ Start gathering data about spanish shop open or closed nation wide, similar to https://github.com/PanierAvide/covid_enseignes/blob/master/regles.csv.

@yopaseopor Can you tell us more about what is open and closed in Spain and which categories of POI should be displayed ?

MAPROULETTE - <http://www.maproulette.org>

The screenshot displays the MapRoulette website's 'Create & Manage' interface. At the top, a navigation bar includes the MapRoulette logo and links to 'Dashboard', 'Find Challenges', 'Leaderboard', and 'Learn'. Below this, the 'Create & Manage' section features an 'Add Project' button. The main content area is divided into two columns. The left column, titled 'ABOUT PROJECTS', explains that projects group related challenges and that users can create multiple projects to organize challenges and invite others. The right column, titled 'PROJECTS', lists several active projects, each with an eye icon, a title, and a list of challenges. The first project is '#SigueAbierto Ajustar brand en todos los negocios españoles'. The second project is 'Ajustar brand en todos los supermercados españoles que falten'. The third project is 'Ajustar brand en todas las oficinas bancarias españolas que falten'. The fourth project is 'Ajustar brand en todos los sitios de'.

ABOUT PROJECTS

Projects serve as a means of grouping related challenges together. All challenges must belong to a project.

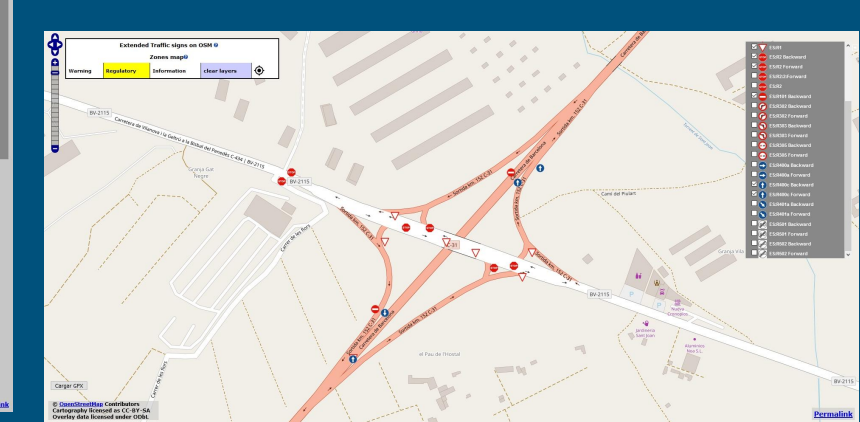

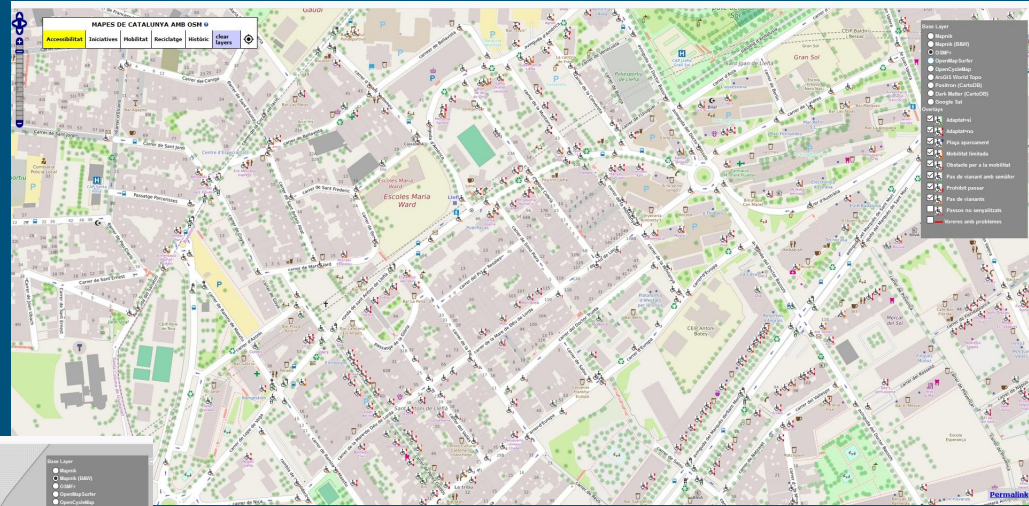

You can create as many projects as needed to organize your challenges, and can invite other MapRoulette users to help manage them with you.

Projects must be set to visible before any challenges within them will show up in public browsing or searching.

PROJECTS
